OAKFIELD, N. Y.
HOW TO USE THE DIAL TELEPHONE
OAKFIELD CALLS

1. Obtain the number from the directory. For example, 2982.
2. Remove the receiver and listen for dial tone—a steady humming sound. Be sure to leave receiver off while dialing.
3. Then place your finger in the hole over the figure "2" and turn the dial around until your finger strikes the stop.
4. Raise your finger and without touching the dial allow it to return to its original position.
5. Then dial the figures "9," "8" and "2." Listen for the RINGING SIGNAL, an intermittent bur-r-ring sound indicating the called telephone is being rung. If the called telephone is busy, you will hear instead the BUSY SIGNAL, a rapid buzz-buzz-buzz quicker and louder than the ringing signal. If the party you are calling does not answer after several attempts, dial "Operator" and ask whether the number has been changed or disconnected. For ASSISTANCE on local calls dial "Operator."

OUT-OF-TOWN CALLS

Dial "Operator" and give the details of the call to the operator who answers.

EMERGENCY AND SERVICE CALLS

On all EMERGENCY (fire, police or state trooper) calls, dial "Operator" and be sure to give exact location of the emergency. On all INFORMATION and REPAIR SERVICE calls, dial "Operator."

CALLS TO OTHER PARTIES ON YOUR LINE

Always listen before starting to dial to be sure that the line is not in use.

All parties whose telephone numbers have the same first three figures are on the same line. For example, 2982 and 2987 are on the same line.

To call another party on your line, it will be necessary to dial a special code number. If you do not have the code number of the party you wish to call, dial "Operator" and ask for it.

After dialing the code number, replace your receiver on its holder. Your telephone bell, as well as that of the called party, will then ring. You will hear either the called party's ring or your own ring. When the called party answers, your bell will stop ringing. Then remove your receiver and talk. To stop your bell ringing in case the called party does not answer, remove your receiver for a short period and then replace it.
